Overview of the Scheme of Delegation

A Multi Academy Trust's (MAT) Board of Directors is accountable in law for all major decisions about their academies. However, this does not mean that the board is required to carry out all the trust's governance functions and many can and should be delegated, including to the CEO, Directors Committees and Local Governing Boards.

It is vital that the decision to delegate a function is made by the full Board of Directors and is recorded. Without such delegation, the individual or committee has no power to act. The principle governing document in trusts is the articles of association. The articles set out the charitable purpose of the trust, providing a framework for trusts to act within both company and charity law.

They will not however include the specific detail of the trust's chosen governance structure and how governance functions have been delegated. This is why it is critical that trusts agree a scheme of delegation that explicitly establishes who carries out which governance function and can therefore make the decisions associated with that function.

A scheme of delegation is an essential requirement for effective governance and clear decision making. As a document, the scheme of delegation should be as simple and systematic as possible, so that the Members, Directors, Local Governing Boards and Executive Leaders are all clear about their roles and responsibilities within the governance structure.

It is important that the scheme of delegation is visible to all, both within and beyond the trust, so that it is clear how the governance structure and lines of accountability work.

This is why the scheme of delegation must be published on the trust's website, as well as all of its schools' websites. Which functions the board decides to delegate will vary depending upon the size of the MAT, both in terms of the number of academies and the number of pupils in the MAT, and the way in which its leadership is structured, as well as the geographical spread and the context of the academies.

The status of the Scheme of Delegation

The scheme of delegation is a key governance document because without it, it is not clear how accountability and decision-making works within the trust. This is why the Academies Handbook requires it to be published on the trust's website. It is especially important that maintained

schools joining academy trusts take time to understand the trust's scheme of delegation so that they are clear about the trust's approach to local governance and which functions are delegated.

Review and adapt

As MATs mature and grow the workings of the MAT, both in terms of governance and management are likely to change.

The Scheme should be reviewed annually, with changes made as the context changes, if necessary, each year. This is a recognition of the need to be responsive to changing circumstances and to adapt accordingly. It is, however, important to ensure that all involved in governance are made aware of any changes and what these mean in practice.

An effective scheme of delegation will:

- reflect the trust's ethos, promoting a positive climate and a culture of honesty, transparency, and accountability for the benefit of all stakeholders
- ensure the executive leadership is clear about which decisions the trust board retains, and the extent of executive powers
- be clear about who appoints and performance manages the Chief Executive, other Senior Executives, and the Academy Principals/ Headteachers
- identify where the trust board retains responsibility for:
 - Oversight of educational performance
 - Oversight of budgets and financial management
 - Management of risk determining policy
 - Determining Policy
